LARGE FORMAT PRINT TO THE
CONSTRUCTION INDUSTRY

MONSTER-MESH
Event & Construction Branding

Heras Fence Covers

Hide unsightly fences whilst advertising your brand or project. Choose from 3 air permeable materials:

115gsm Polyester Airmesh

- 54% air permeable
- Machine washable
- Reusable for multiple sites
- Hemmed & eyeleted
- B1 fire rated

300gsm PVC Mesh

- 37% air permeable
- Cost-effective advertising
- Ideal for single site usage
- Hemmed & eyeleted
- B1 fire rated

230gsm Polyester Mesh

- 52% air permeable
- Fully recyclable
- Strong & durable
- Hemmed & eyeleted
- B1 fire rated

Help raise mental health awareness

We partner with Andys Man Club to raise awareness of men's mental health in the construction industry.

To encourage workers that it's okay to talk, we've created a Heras Fence Cover that is free for anyone who orders over 10 Heras fence covers.

Alternatively, you can buy Andys Man Club covers at a discounted rate.

Pre-designed Heras Fence Covers

Skip the hassle of creating artwork. Choose from a range of designs including forests, hedges, fencing and more.

Available in:

115gsm Polyester Airmesh

230gsm Heavy Polyester Mesh

300gsm PVC Mesh

Pedestrian & Vehicle Gate Covers

Vehicle Gate Covers

205cm wide x 178cm tall

Available as left or right handed gates

Available in PVC Mesh or Polyester Airmesh

Pedestrian Gate Covers

105cm wide x 178cm tall

Available as left or right handed gates

Available in PVC Mesh or Polyester Airmesh

Easy to Install

Install gate covers using tie wraps and eyelets in exactly the same way as Heras fence covers. Start in one top corner and work your way along the length of your gate cover to make sure of a tight and secure fit.

Printed Debris Netting

Advertise your brand whilst protecting passersby from site debris.

- 50gsm High Density Polyethylene (HDPE)
- 70% air permeable
- Logo printed on white background
- Range of widths & lengths

Widths	Lengths
1.75m	25, 50 or 100m
2.00m	25, 50 or 100m
2.60m	25, 50 or 100m
3.10m	25, 50 or 100m

Hoarding Signage

Made to 1220mm x 2440mm as standard and available in two different materials:

ACM (Dibond) Panels

- Weather-resistant
- Full-colour UV printed
- Easy to install
- Headers & kickers
- Free artwork support

PVC Foam Panels

- Indoor or short-term use
- Full-colour UV printed
- Easy to install
- Headers & kickers
- Free artwork support

Range of finishes to suit you

- Unlaminated
- Matt lamination
- Gloss lamination
- Anti-graffiti

Building Wraps & Banners

Advertise your brand whilst working on your current project. Banners and building wraps can be made to any shape or size you require.

Larger building wraps are stitched together to create one piece and fitted with Keder reinforced hems.

Made from 230gsm Heavy Polyester Mesh

52% air permeable and made with a tight weave, Heavy Polyester Mesh offers high tensile strength and a quality print.

It's also PVC-free, making it an environmentally friendly choice for your building wrap.

Mesh, PVC & Fabric Banners

Custom banners are available in a range of B1 fire rated materials. Get in touch to find out which material is best suited to your project.

Scaffold Banners

Promote your brand to passersby with scaffolding banners.

Range of sizes

Choose from our most popular scaffolding banner sizes below or get in touch for custom size requirements.

1 metre (w) x 1 metre (h)

1.2 metre (w) x 1.2 metre (h)

1 metre (w) x 2 metre (h)

2 metre (w) x 1 metre (h)

2 metre (w) x 1 metre (h)

Simple to install

Scaffold banners come with pole pockets along the top and bottom of your banner as well as eyelets above each pocket on the side you will be attaching to your scaffold.

These slide onto all standard-sized scaffold poles and are tightened by the positioning of your scaffolding tubes. Pole pockets are oversized to prevent tension on seams that can lead to tears or rips.

Let us know if you want pole pockets on the left and right of your scaffold banner instead of the top and bottom.

Pedestrian Barrier Covers

Choose from a range of pedestrian barrier covers to suit your needs and budget.

Single-sided Covers

- PVC Mesh or Airmesh
- Angled corners
- Fit 2.3 or 2.5 metre barriers
- Strong & durable

Double-sided Covers

- PVC Mesh or Airmesh
- Round corners
- Reinforced hems & eyelets
- Easy to install

Met barrier Covers

- Airmesh or Display Polyester
- Fit 1.5 metre barriers
- Machine washable
- B1 fire rated

Trusted by brands across the UK

"Very quick delivery and excellent quality for the price."

"Extremely fast turn around on artwork revisions and final proofs, as well as reasonable costs."

"Excellent service. Amazing product, so please with my new advertising."

Artwork Guidelines

Speed up your order by ensuring your design meets the guidelines below. We'll still check your artwork and send over proofs before going to print.

1. File Type - We recommend sending a PDF of your artwork. TIF or AI files are accepted but must be flattened before sending.

2. Size & Scale - Always supply full-size files unless your artwork is larger than 4500mm. Any artwork larger than this should be supplied at 10%.

3. Bleed - There is a 10mm bleed at full size so keep this in mind when creating your artwork to ensure none of your design is cut off.

4. Colour Settings - All colours should be CMYK. We can convert RGB to CMYK but this can cause unexpected results.

5. Colour Matching - There may be some slight colour variation from one supplier to the next. It's also worth noting that you may not see an exact colour match compared to what you see on screen. Your screen's resolution can impact the colour you expect to be printed.

6. Texts & Fonts - Ensure text and fonts are outlined, even on PDF files. Alternatively, you can supply fonts as a packaged folder.

7. Images - Embed all images before saving. Linked images in a folder are not recommended and could delay the order process.

8. Resolution - Please save your artwork and aim for a minimum of 50 DPI at print size. For artwork advice, don't hesitate to get in touch.

Delivery Information

Location	Delivery Time	Cost
Most of mainland UK	5 to 7 working days	£17.50 or free when you spend over £250* * Hoarding Signage & Tarpaulins excluded from free delivery offer
Northern Ireland Republic of Ireland Scottish Isles Isle of Man Isle of Wight	7 to 10 working days	Calculated based on product and location. Get in touch for a quote.

While delivery times are not guaranteed, our services are usually very reliable. Should you need your orders quicker or on a specific date, get in touch to enquire about our Express or dedicated courier service.

Hoarding Delivery

Due to the size & weight of Hoarding panels, we use a dedicated courier service. The cost of which is calculated by order size, weight and location. Hoarding panels are typically delivered within 7 working days from payment.

Fence Tarpaulin Delivery

The cost to deliver fence tarpaulin is dependent on the number of units ordered and are typically delivered within 2-3 working days from payment. Get in touch for an accurate quote of delivery costs.

Debris Netting Delivery

Debris netting typically takes 2-3 weeks from payment.

Hello, we're Monster-Mesh. We're Construction Branding specialists offering a wide range of large-format printing with free artwork and design support.

Based in Rotherham, South Yorkshire, we've been helping brands across the UK stand out against competition for over 6 years.

Our mission is simple. To help every one of our clients choose the right products, materials and design to promote their brand or make their site more private and secure.

So far we've supplied over 5,000 businesses and sold over 120,000 Heras Fence Covers.

That's 260 miles of Heras fence covers. Enough to enclose the whole of the M25, twice over!

Simple yet personal order process

Free artwork & design support

Free delivery on orders over £250
